SKILLS

Computer Science

M.Sc. Computer Science (Distinction) — RMIT University

Focused on algorithm design, heuristic search, gaming AI, robotic task planning (PDDL)

Master's thesis: 'Heuristic search efficiency in robotic task generation'

Highly Skilled

Flutter • Swift • SwiftUI • Kotlin • React • Java • C# • RESTful APIs • Git

Associated Skills

CSS • ASP.NET / Blazor • UIKit • TypeScript • Vue • Node.js (Express) • CI/CD (Jenkins) • Python • JSON • XML • YAML • MongoDB

Other / Exposure

PHP • Python (Flask) • AngularJS • .NET Core

Additional Interests

Unity (C#) • Game development

EXPERIENCE

2017–2026 — ZOME (Rhizomenet)

Senior Application Developer (Middleware & UI)

Cross-platform development for production releases of the ZOME mobile and spatial platform.

Work focused on UI architecture, state management, middleware development, and UI adaptations across multiple platforms.

Managed build and release pipelines for App Store and Google Play submissions.

Platforms shipped:

- iOS - App Store
- Android - Google Play
- VisionOS - Apple Vision Pro launch partner
- Android XR - Samsung Galaxy XR launch

Technologies

Flutter • Swift • SwiftUI • Kotlin • UIKit • Node.js • React • Vue • Java • MVVM

2007–2014 — RMIT University

Senior Application Developer (UI)

Development and design of e-learning applications and supporting middleware systems. Responsibilities included front-end architecture, software maintenance, and adaptation of educational platforms and digital content.

Technologies

.NET • React • AngularJS • MVC

EDUCATION

Master of Computer Science

RMIT University — 2018

PROJECTS

ZOME International Development & Promotion

Los Angeles — 2022

Development support and platform promotion during international engagement and launch preparation for the ZOME platform.

International Collaboration

Wearable UI

Adapted designs by internationally renowned fashion designer Hussein Chalayan into interactive digital fashion — wearable interfaces.
